Beyond his medical pursuits, Ker delved into the realm of the paranormal. He became an active member of the Theosophical Society, a prominent spiritualist organization, and reportedly engaged in séances and other occult practices.

The First Death

The first of Ker's mysterious deaths occurred in 1892. While visiting the home of a friend, he was discovered unconscious and unresponsive. Despite the efforts of doctors, he could not be revived.

Officially, Ker's death was attributed to a heart attack. However, there were inconsistencies and疑点 that arose during the investigation. Some witnesses claimed to have seen Ker exhibiting strange symptoms before his collapse, while others reported hearing unusual noises coming from his room.

The Second Death

Less than a year after Ker's first death, another tragedy struck. In 1893, his widow, Mary, was found dead in their home. The official cause of death was poisoning, but again, there were suspicious circumstances surrounding her demise.

Mary's death raised further questions about Ker's own demise. Had he been responsible for her death, and if so, why? Or had she uncovered some dark secret about him and met with a similar fate?
