What is Collins Big Cat Phonics for Letters and Sounds Living Fossils?

Collins Big Cat Phonics for Letters and Sounds Living Fossils is a synthetic phonics program that teaches children the relationship between letters and sounds. The program is based on the Letters and Sounds phonics scheme, which is used in many schools in the UK.

The program consists of six phases, each of which focuses on a different set of phonics skills. In Phase 1, children learn to identify and manipulate sounds in words. In Phase 2, they learn to blend and segment sounds to read and write simple words. In Phase 3, they learn to read and write words with digraphs and trigraphs. In Phase 4, they learn to read and write words with long vowel sounds. In Phase 5, they learn to read and write words with consonant blends. And in Phase 6, they learn to read and write words with complex vowel sounds.

What are the benefits of Collins Big Cat Phonics for Letters and Sounds Living Fossils?

There are many benefits to using Collins Big Cat Phonics for Letters and Sounds Living Fossils to teach your child phonics. These benefits include:

- **Systematic and progressive:** The program is designed to build on children's prior knowledge and skills. Each phase introduces new concepts and skills in a logical and progressive way.
- **Multi-sensory:** The program uses a variety of activities to engage children's different learning styles. These activities include games, songs, and stories.
- **Fun and motivating:** The program is designed to be fun and motivating for children. The activities are engaging and the characters are relatable.
- **Proven track record:** The program has been used successfully in schools for many years. It has a proven track record of helping children learn phonics and develop their reading skills.
