Are you ready to unlock the full potential of your team and achieve extraordinary results? The Professional Scrum Series: Learning to Thrive With Self-Managing Teams is the ultimate guide to empowering your team with the knowledge, skills, and practices they need to become a high-performing, self-managing team.

The Power of Self-Managing Teams

Self-managing teams are teams that are empowered to make their own decisions, manage their own work, and hold themselves accountable for results. They are not dependent on external leadership or direction and can operate autonomously and effectively.

The benefits of self-managing teams are numerous. They include:

- **Increased productivity:** Self-managing teams are more efficient and productive than traditional teams.
- **Improved quality:** Self-managing teams produce higher quality work because they are more invested in the outcome.
- **Greater innovation:** Self-managing teams are more likely to come up with new and innovative ideas because they are not constrained by traditional thinking.
- **Higher employee satisfaction:** Self-managing teams are more satisfied with their work because they have more control over their work environment.

The Professional Scrum Series

The Professional Scrum Series is a comprehensive set of learning materials that will teach your team everything they need to know about Scrum and self-management. The series includes:

- **Professional Scrum Fundamentals:** This course provides an overview of Scrum and the Agile mindset.
- **Professional Scrum Master:** This course teaches the role and responsibilities of the Scrum Master.
- **Professional Scrum Product Owner:** This course teaches the role and responsibilities of the Product Owner.
- **Professional Scrum with Kanban:** This course teaches how to combine Scrum and Kanban for a more effective workflow.

- **Professional Scrum with User Stories:** This course teaches how to write and use user stories effectively.

Learning to Thrive with Self-Managing Teams

The Professional Scrum Series will teach your team how to:

- **Understand Scrum and the Agile mindset**
- **Effectively use Scrum ceremonies and tools**
- **Collaborate effectively within the team**
- **Self-organize and manage their work**
- **Deliver high-quality products and services**
